### Brand Statement

Dynamic software engineer and avid gamer with a profound passion for community building within the gaming industry. Boasts proven experience in creating engaging online environments, moderating discussions, and enhancing user experience through technical innovation and responsive community engagement. Eager to bring a blend of technical expertise and a community-first mindset to the Community Manager role at Nexon.

### Skills

**Community Management:** Proficient in managing and moderating online communities on platforms such as Twitch and Discord.

**Technical Skills:** JavaScript, React.js, HTML5, CSS3, Node.js, Express, MongoDB, Git, GitHub.

**Communication:** Strong verbal and written communication skills, adept at content creation and live interaction.

**User Engagement:** Skilled in developing strategies to increase user engagement and retention.

**Problem-Solving:** Quick to address and resolve community-related issues, fostering a positive environment.

**Project Management:** Experienced in leading and collaborating on software development projects.

### Software Development Projects

**Community Engagement Platform:** Developed a web application to enhance community interaction for content creators, utilizing EJS, CSS, and Bulma for front-end development, alongside Express and MongoDB for backend services.

**Player Rating System:** Created a system to rate player behavior, encouraging positive community interaction within competitive gaming scenes.

**Interactive Game Development:** Designed and implemented a claw machine game, showcasing skills in user experience and interactive design.

### Professional Experience

## Community Moderator and Streamer

Managed live chat and community interactions for online streaming channels, fostering a friendly and inclusive atmosphere.

Developed and enforced community guidelines to maintain a positive community environment.

## Taco Bell, Crew Member

Delivered high-quality customer service, demonstrating strong communication and team coordination skills.

## Nona Sushi, Chef / Sushi Court, Sushi Chef

Led a team, delegated tasks, and maintained high standards of kitchen operation, showcasing leadership and organizational skills.

## Leadership in Gaming Communities

Guild Leader in Various Games: Including Black Desert Online and MapleStory; created fun environments and helped new players improve.

Group Leader in League of Legends: Organized and led teams, focusing on leveraging individual strengths for team success and strategizing gameplay.

Active Participant in Discord Server Chats: Consistently engaged with community members to foster lively discussions and ensure ongoing community interaction.

Collaboration with Plate Up's Community Manager: Contributed to community engagement strategies and new game development ideas.

## Education

Bachelor of Science in Computer Science (In Progress)

East Los Angeles College
